INCREASE OF RAILROAD EARNINGS.

Binek Speculators Confident That Matters Will I More Animated.

Reports to Bradstreet's and R. G. Dun & Co. indicate that general business is in a healthy condition all over the country. Iron in particular is in great demand, notwithstanding the fact that the production is

PEPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, December 13 .- Special tele grams to Bradstreet's report very generally a fair distribution of merchandise, but there are complaints of great scarcity of cars on the trunk lines with which to move corn. The mild weather has been widespread, checking the movement of winter clothing and other seasonable staples. Very heavy rains have checked trade on the Pacific coast, as did the Davis obsequies at New Orleans and elsewhere at the South. But on the whole the volume of business remains in excess of that one year ago.

In the stock market the 2 per cent Western Union dividend strengthened that stock, but elsewhere the Vanderbilts alone appeared to be able to resist the general deession which has prevailed, notwithstanding the revival on Friday and Saturday last. The manipulation of money, which has ranged from 15 to 3 per cent, has been a factor in the attack, as were the unfavorable bank statement, the depressed coal shares and the mild weather. Money is easier, but is not likely to become steady until after the January settlements. Bonds are in improving demand. Silver is in rather better request from India and it is thought

A DECIDED INCREASE.

Rallway gross carnings reported by 137 companies for November show a total of \$36,801,061, or 12 per cent more than for the like month in 1888. For 11 months of the current year the aggregate of gross earnings in \$350,760,634, or 9 per cent increase. The iron and steel industries are firmer and show more pronounced tendency to advance. Pig is now quoted \$19@19 50 for No. 1, and the outlook is that the price will go into the new year at \$20. Bessemer pig and wire

rods are each higher and in demand.

Production of pig is about 170,000 tons each week, an increase of 30,000 tons weekly within six months, yet consumption is correspondingly beavy, preventing stocks from accumulating. Bolting mills are all working full time. Steel rails are firm at \$35 at the mills. At the East there is an extra-ordinary demand for lake ore for next senson. Bur iron will soon be advanced to 2 cents per pound.

Flour, wheat, corn and oats have all been essy with large stocks or free offerings, though spot wheat commands an advance of 1/6 1/2 over the close a week ago. Rye is 21/20 higher on renewed request for export. Exports of wheat (and flour as wheat) amount to 2,471,216 bushels this week, of which one-third is from the Pacific coast, against 2,327,342 bushels last week and 1,571,619 bushels in the second week of De-

EXPORTS OF WHEAT.

exports of wheat (and flour as wheat) July 1 to date amount to 47,323,100 P. C. C. C., cor. Grant as bushels, as compared with 43,571,619 bushels in a like portion of 1888, and 70,255,000 visions markets still remain conspicuously the weakest on the list. Receipts of hogs remain very heavy (5 per cent in excess of previous week) and dressed and live hogs continue depressed, about 10 cents per 100 pounds. Lard options have declined tractionally. Pork is barely steady in price. Butter and cheese are in only moderate request, and eggs are lower on light demand. Baw sugars are off 1/65-16c on the week after the renewed activity just preceding, at which dealers stocked up freely with refined. The starting up of the new anti-trust re-finery December 10 at Philadelphia and a lighter demand are features. There is no reastion in prices of refined, although the movement is lighter.

Speculative trading in coffee is brisk, and prices tend upward on decreasing visible stocks and reduced estimates of the Brazilian crop. Option prices advanced 65@80 points and in distributive lines %@%c per

DEYGOODS LINES.

The cotton goods situation shows more confidence on advances in bleached goods, brown sheetings and drills. Print cloths are in sharp contrast to the general market, with a decline of 1-16c. Mild weather affects the jobbing distribution of heavy goods unfavorably. Wool is in fair demand at steady prices. Cotton is dull and without much change in the face of conflicting

erop estimates.

Business failures reported to Bradstreet's number 370 in the United States this week, against 281 last week and 309 this week last year. Canada had 23 this week, against 35 last week. The total of failures in the United States January 1 to date, is 11,023, against 9,747 in 1888.

R. G. Dun & Co.'s weekly review says: But for one thing the business reports re-ceived this week would be exceptionally satisfactory. Unsessonable weather ac-counts for depression in one or more Kaufmanns' grand depot. branches of business. The trade in woolen goods and in heavy boots and shoes is also retarded, and the anthracite coal trade even more seriously. On the other hand, there is some compensation in the fact that the open weather has enabled building operations to be carried on longer than usual. day trade has also commenced early and is

OVER THE COUNTRY.

Trade at Boston is on the whole very good. The hoot and shoe trade is satisfactory. Philadelphia carpet mills are also full, but at prices which leave narrow margins, and wool wanufacturers are working short time. The grocery trade there largely exceeds last year's, at firm prices. At Chicago the grain trade exceeds last year's, the trade in provisions has nearly, and in butter and cheese doubled, while there is some decline in hides and a heavy decrease in wool.

In nearly all lines business is large at St. Louis. Except in North Central Arkansas and Southeast Missouri, collections are un-usually easy. At Milwaukee, Omaha, St. Pauland other Western points, while weather affects the trade, prospects are good, and except in localities about Milwaukee, collections are called fairly satisfactory.

The situation is healthy, as appears in the

return of iron furnaces for December 1, which shows a weekly output of 169,151 tons, against 165,225 November 1 and 148,-913 a year ago. With an output at the rate of 8,750,000 tons per annum, iron does not yield in price, though it is admitted that heavy sales have been made at figures below Philadelphia quotations, and in many instances probably at \$19, with guarantee against loss if prices fall.

ADVANCING PRICES. Steel rails are firm at \$35. Advancing prices are noted at Pittsburg, and great activity in ore at Claveland, where, it is stated, the natire Lake Superior product for next year has been already sold, the Bessemer at \$6 per ten. The speculative markets have been stronger, but show no unwholesome activity. Wheat has risen half a cept with sales of only 14,000,000 bushels and corn the same, outs not changing.
Oil has risen % cent on small trading, and the high price seems to affect exports, which for November were in value \$177,000 detected an less than last year Coffee has risen % cent large stores.

No Boom in Any Line of Business,
but a Good Feeling Prevails.

THE DEMAND FOR IEON PRODUCTS

exports of cotton thus far in November hold the price unchanged.

Pork has not changed, but lard and hogs are weak. The general level of prices has slightly declined. The large railroad earnings for November, showing 12 per cent increase, the heavy business in progress throughout the country, and the hope of an investment demand in January; naturally make holders of good stocks exceedingly form

NO DANGER NOW. Fears of a monetary difficulty have faded away, but the market has not grown easy as yet, nor have reinforcements come from any quarter. The want of funds continues. The West finds in phenomenal business activity employment for the large amount sent thither, and the anticipated imports of gold from Europe do not yet arrive. The Treasury has managed to avoid accumulation. ury has managed to avoid accumulation, and holds \$100,000 less cash than on Friday

The business failures number 290, as compared with a total of 316 last week. For the corresponding week of last year the figures

Windom in the Case. WASHINGTON, December 13.-Secretary Windom has written a letter to the Collector of Customs at Detroit in regard to the complaint of Mr. William McCallum, of Ianelo, Neb., to the effect that his invalid wife was unreasonably detained and an-noyed by the action of customs officers at Detroit on her recent visit to Canada. The facts in this case are that Mrs. Mo-The facts in this case are that Mrs. Mc-Callum brought a partly made suit of clothing for her little son, with enough of the same piece of cloth to complete it, not exceeding \$5 in value. The inspector who examined the trunk assumed this to be dutiable, and instead of collecting the duty at once and permitting the lady to continue her journey, detained her over night, at her own expenses took recession of her have. own expense, took possession of her bag-gage, and the next day further obstructed and distressed her by the failure of the customs officers to attend to their duties and the inefficient character of the business methods at Detroit with references to the ex-amination from Canada. amination from Canada. The Secretary says:

It is a matter of regret to the department that such an occurrence should be possible at any custom house in the United States, and you cannot be too earnestly conjured to take immediate steps to prevent further occurrences of the same kind, which can only tend to make the public service odious. While nothing can be done to compensate Mrs. McCallum for the mental trouble and disturbance inflicted upon her, it is expected that you will find some proper means to reimburse her for all the expenses to which she was unjustifiably put by the virtual seizure and detention of her personal effects, and to instruct your subordinates to exercise proper judgment toward the public, especially to ladies traveling alone, in the future performance of their duties. You will also cease the illegal practice of taking merchandise from baggage and from the pessession of the owner, levying the duty thereon and transmitting the goods by express to the owner, with instructions to collect the duties on delivery. You are further requested to furnish a copy of this letter to Mr. McCallum, who has the thanks of the department for bringing to its attention the unbusiness-like methods pursued at your port.

**Cured by Cuticura** 

I have used the CUTICURA REMEDIES with the best results. I used two bottles of the CUTICURA RESOLVENT, three boxes of CUTICURA and one cake of CUTICURA SOAP, and am cured of a terrible skin and scalp disease known as psoriasis. I had it for eight years. It would get better and worse at times. Sometimes my bead would be a solid scah, and was at the time I began the use of the CUTICURA HEMBDIES. My arms were covered with scals from my elbows to shoulders, my breast was almost one solid scah, and my back covered with sores varying in size from a penny to a dollar. I had declored with all the best doctors with no relief, and used many different medicines without effect. My case was hereditary, and, I began to think, incurable, but it began to the first application of CUTICURA.

A Grateful Mother

I thank you for your CUTICURA REMEDIES, and feel that in doing so I might be able to save some person from a heavy doctor's hill, which I know it has done for me. My baby was seven weeks old when I began to try the CUTICURA REMEDIES for a disease which had spread itself all over its head and face. I was mearly distracted; had been to the doctor's, but got no salisfaction. Before two days' use of the CUTICURA REMEDIES the scale began to looses, and in three weeks I could hardly believe that it was in three weeks I could hardly believe that it was the baby that I used to dread people sceleg. He is porfectly cured, and has a beautiful growth of hair coming. I am very grateful to you, and you are at liberty to use this, if it will be a help to any one.
